

# Team Leung's Jumpy House

## Pick up and Set up Information

**\*\*\*Weather is the biggest obstacle as the moonwalk is not supposed to get wet.\*\*\***

Please arrange a few days in advance the time you would like to pick up the jumpy house with Deann Weeks. You can pick it up as early as the day before if no one has it reserved. The moonwalk is in a 5x8 cover trailer. You will need a 2" ball hitch to attach the trailer. It takes at least two people to load and unload it as it weighs over 200 pounds.

When setting up, you will need a flat, dry area at least 15' x 25' and a height clearance of at least 15'. Included with the moonwalk is a tarp to lay it on, the blower and a 100 ft extension cord.

Setup is as easy as rolling it out and positioning, hooking up the blower and turning it on. You are up and running in about 15 minutes. Rolling it up takes about 30 minutes as you have to wait for all the air to get out.

Happy Bouncing!

### **Contact Information:**

**Deann Weeks - 336-553-0454 or [deann@teamleung.com](mailto:deann@teamleung.com)** (for all reservations and pick up arrangements)

**Andy Leung - 336-772-0333 or [andy@teamleung.com](mailto:andy@teamleung.com)** (for all questions regarding the jumpy house during set up and take down and if there is a change in picking up and dropping off arrangements)
